

Finishing strong!

Congratulations
to the 2022
Rhema Kenya
graduating
class!

The school year at Rhema Kenya finished in November, and 114 students from across the country graduated. It was a day of celebration as the students looked back at all they have accomplished and worked through during their 2 years at Rhema. The Ligards' oldest daughter, Lisa, was also part of the graduation as she graduated from online High School. Many students testified of God's faithfulness during their time of study and one lady even testified how she had been paralyzed for 7 years prior to coming to Rhema, but during Healing class received her healing and is walking today! We praise God with the students for all the testimonies in their lives.

Outreaches, open days, alumni fellowship, conferences, TV appearances, graduation....those are some of the activities we have been focusing on this fall.

Click here to watch what Safari Mission is all about

This student came all the way from the Seychelles to attend class. For 2 years, she came for 3 weeks 4 times a year!

Our passion is to transform society from within using local resources and training up local people. Our method is to train people through teaching and practical examples. As we have trained up team members in Kenya, these team members are the ones going into Congo to train people there. During the first official training program, our team was teaching about doing what you can in the natural to produce food inside Congo. Congo is very rich in natural resources, yet the people are extremely poor. Water is not a problem, therefore growing their own food should not be a problem either. All it takes is a shift in mindset. As our team discovered that eggs in Eastern Congo is imported from Uganda and sells for \$2 a piece (!!), they encouraged the pastors to buy chickens instead and produce their own eggs. During the breaks, the students collaborated on how to go about this and how they can even open a chicken hatchery. One pastor collected some money and went and bought a chicken that he brought to class the following day! The people are getting the message that is able to take them from poverty to prosperity through hard work, investments, and business opportunities.

Thank you Partners!

Thanks to you, our faithful partners, we are able to really transform people in Africa. Change has to come form within, and through the teaching for the Word of God and practical application, we are able to change people, families, communities, and societies for generations to come. Poverty is not a lack of money, but a mindset that leads to a lack of money. By training people to look within themselves and see what they can do in order to become productive with the resources they have, we are able to create a mindset shift that brings lasting change. We do not believe in band-aid fixes that just creates dependency on the giver, but in transformational change that affects even the future generations. Thank you for helping to get this message out that transforms people from within.

SPECIAL PROJECTS FOR 2022

Instruments and equipments \$5,000 **Congo Missions** \$40,000 **Building Mombasa** \$500,000

Will you be a part of training leaders in Africa?

We are dependent on partners like you to bring teaching to the poorest places on the Earth. Will you help? Only \$5, \$15, or \$25 a month will help.

Together, we are changing Africa!
